Ailing Economy: Debt Buildup Called Cause

ERS Founder Featured in the New York Times

In 1986, Ray Mullaney's early warnings on America's mounting debt crisis were featured on the front page of The New York Times. Long before today's headlines, Ray demonstrated the same commitment to rigorous analysis, objectivity, and investor protection that defines Equity Risk Sciences today.

1978: Ray began formal study of financial statements.
1982: Ray incorporated his first NASD brokerage firm and SEC-registered investment research firm.
1986: Ray made front-page of New York Times warning of future market crash
August 1986: Ray elected to represent Massachusetts at the White House Conference on Small Business
1987: Markets crash as Ray warned in 1986.
Q3 2000: Merrill-Lynch's "Global Research Review" placed GE and Cisco on their most highly-recommended "Focus List".
Sep. 2000: Ray submitted reports to the SEC alleging GE and Cisco had produced "misleading earnings" & "potential fraud"
October 2000: Three weeks after Mr. Mullaney's reports, **Barron's** featured a major report about Cisco's accounting practices by the esteemed Abraham J. Briloff, Ph.D., CPA.
Early 2001: The S&P 500 was down 21%, but Cisco was down 75% and GE was down 37%.
May 27, 2020: In a Forbes interview, ERS rated Bristol-Myers extremely risky (it lagged the S&P by 70% in a year) and BorgWarner very strong (it beat the index by 50%) - a compelling demonstration of ERS's ratings accuracy.
2023: First investment by a family office
2025: ERS creates its first index fund with BX-Partners.com
